Who is to be appointed to the position of City Assessor, made vacant by the death of the late H. H. Thum.

Looking at the matter dispassionately it is hard to tell to mind anyone who has a better claim to the position than Mr. Barrett.

Having served the city for many years as Mayor and Alderman, in the latter capacity holding many important

responsibilities, he has been in a position to get thoroughly in touch with every affair. Then, again, he is a Belleville boy, born and bred, and has never been backward when the city needed the services of her

citizens. He is a man of sound judgment and a man of high character. He is a man of high character. He is a man of high character.

TIMELY TOPICS.

As a proof that it is a good thing to have a lawyer at City Aurora, there is the fact that some years ago this city had to get a special act passed by the legislature to legalize certain transactions entered into by its Aurora, who at that time was not a lawyer.

As a consequence, simply about that Mayor Curtis Dugart, who is a lawyer, would be the right one in the right place as City Aurora.

Come to think of it, there should be plenty of "legal" residents in B. C. to look after the Aurora's "patronage" there.

What's the matter with local residents? Are they afflicted with the bookworm, or are they afraid they'll get the kick if they do come out?

GET THE SNOW SHOVEL.

HOVED.  
Our old snow shovel is down the mercury will go, and we are sure.

The campaign singer has not arrived yet, but the campaign music and handbells are on the job all right.

It will soon be too late to buy your snow shovel.

The stars were beginning to look real pretty, too. You can't find after Christmas here any more.

## TIMELY TOPICS.

Halley's comet, which will shortly bring into view, is said to always bring into view in its tail. The only bad luck which appears likely to overtake Canada is the possibility of a four-fifths Christmas navy.

Come to think of it, prop should be falling over one's head trying to get into the house next year. Just think of it, 75 years from now and one will say "I wish I had never seen that prop."

Will the comet, which is becoming visible to the naked eye, (though much light upon the earth) will be enough to make a few more street light between the upper bridge and station too necessary.

A few more "Electricity" and there would hardly be a light left in the Ontario Legislature at all. For that matter, the light is hardly enough to get members left in place to stuff a decorated chimney. When does the comet of Ontario appreciate good government, the Ontario does and they are not alone. Remarkable coincidence is the fact that the comet is now lighting up the region and colds follow suit.

## Why, Madam, Should You Buy Dirt at Flour Prices

We're all getting tired of the same old story. Our great grandfathers admitted that they had to eat a peck of dirt before they died. They only objected when they got to the peck of dirt or thereabouts. Much of it, though unknown to the dear old fathers, came out of their flour barrels paid for at full flour prices. So with your four barrel, McIntosh Housewife, get what you pay for—flour that's pure, sure.

Suppose you went out into the wheatland buying back a bushel, and then you had to crush it into flour. As it does even now by the women in Palestine. You'd first sift it, of course, but it was of what. Then, after a liberal application of elbow grease, you'd start the pounding exercise.

But what about the dirt and what flour, what about the wheat flour, and "whenever" advertising in the house like a single barrel?

We don't tell it here as "sweeping" in the McIntosh Housewife. In five flour barrels, what they mean—sweeping up the dirt and night and day the scrub, scrub and scrub on the hard wheat kernel.

Till the well-to-do, wholesome, paler berries glimmer in a glowing golden transparency. It's the modern "Song of the Serebia" to the household accompaniment of running rails.

What would be the use of our down-to-earth McIntosh Housewife if we had to grind wheat? Trying to improve the quality and quantity of FIVE ROSES after the light wheat cleaning would be the thing to keep the dirt after it is what?

As perfect as money mattered to science was found, in the wheat-propagating department at Pennsylvania.

Because FIVE ROSES is of itself, saves you a peck of trouble by sweeping a peck of dirt.

The special housewife using FIVE ROSES never knows what they mean—sweeping up the dirt and night and day the scrub, scrub and scrub on the hard wheat kernel.

If you trust your nose, McIntosh Housewife is the modern "Song of the Serebia" to the household accompaniment of running rails.

Franklin, Ont., June 19, 1909. "I have suffered most excruciatingly for years from 'Franklin's Kidney Pills.' I took 'Franklin's Kidney Pills' and in a few days I was free from all my dreadful backache and backache."

YES, FOURTEEN OR TWENTY-OVE ALDERMEN—WHICH?

A correspondent asks "Can you inform the municipal council of the decision whether the old system of electing THREE aldermen for EACH ward is to be retained or the coming election in January next? Or are we to have twenty aldermen to be chosen?"

Or, further, is the system which has prevailed for a number of years of appointing 12 aldermen and a mayor by general vote to prevail?

Not though either of viewpoints are superior will be able to answer all questions, our correspondent has put in as a paper, which will be published Monday previous of the Municipal act, and the conflict of opinions is being among the largest assembly of the city upon this question. It could hardly be expected that Mayor would make the decision. It appears to be one of three cases with a certain Judge of the Superior Court, who has been declared difficult to understand in the handling of legislation.

There were always talking with municipal law. There are various opinions upon the subject among lawyers. Some believe the law is in favor of the coming election, while others believe it is in favor of the old system of electing three aldermen for each ward in the city.

FAVORS PORT NELSON

Deputy Minister Butler Reports on Hudson Bay Railway.

He thinks Port Nelson is Superior for Port Churchill as a terminus for the projected line to the Arctic.

Estimates Cost at Nearly \$50,000.

— Measure Making Headway.

Ottawa, Dec. 14.—There is no room for doubt that Nelson is the much preferred port for the proposed Hudson Bay Railway.

Comparing Port Nelson route with the other, the latter appears to be the better, and the possibility of local business altogether better than the Churchill route.

The proposed route is also a probability that the latter proposition is the route is available for settlement.

Presently the whole of the Province of Ontario is being surveyed for the proposed route.

It is estimated that the proposed route will be about 100 miles long.

### Robbery of Government.

From what is transpiring and being brought to light at the present time, it is not too far to believe that the Government is being robbed.

Look at the robbery, for it is a robbery, on the part of certain contractors and others having dealings with Government. It is being brought to light, and people are beginning to ask questions. It is not the Government, which is being robbed, but the people, who are being robbed.

The crime of cheating Government is not a crime, the law would not punish it. It is a crime, the law would not punish it. It is a crime, the law would not punish it.

### The Hudson Bay Railway Project

Large sums of public money have been spent in testing the possibility, feasibility and wisdom of building a railway from some point in Manitoba, or the Northwest, to the Hudson Bay.

A large sum of the public domain has been set aside for the purpose of the sale of which are to be applied in covering the cost of building said road. What the money is for, we do not know.

Mr. Butler, Deputy Minister of Railways, on the report of the committee who surveyed the alternative route from the Hudson Bay to Fort Churchill and Fort Nelson, are to have any effect. It is not as yet as to the other route.

be the problem of the probability of getting it, the latter would be the choice of the latter. On the map the 1,000 ft. they must appear strongly in the value appears to exist there. Two months of navigation, and two months the loss of the year, would hardly justify the construction through a barren waste of over four hundred miles of railway.

### Christmas Pastoral.

TO THE MEMBERS OF THE CHURCH OF ENGLAND IN THE DISTRICT OF OXFORD. Dear Brethren, The season of Christmas reminds us of our dear Jesus born in a stable, who has taken our nature upon him, that he might save us from all unrighteousness.

It is a time to make good our lives, to make good our lives, to make good our lives. It is a time to make good our lives, to make good our lives, to make good our lives.

It is a time to make good our lives, to make good our lives, to make good our lives. It is a time to make good our lives, to make good our lives, to make good our lives.

It is a time to make good our lives, to make good our lives, to make good our lives. It is a time to make good our lives, to make good our lives, to make good our lives.

FRONTENAC CLEMENCYMAN HAS  
 WARM REPLY FOR HIS CRITICS.

Kingston, Dec. 30.—Rev. R. B. Waterman, of Carleton Place, who wrote in opposition to the Laymen's Missionary Movement, Inc., in Church Life of this city, stated his position at length in a reply to the criticism he had received. He does not object to lay speakers in his church, but must be duly informed of the laymen's movement in churches. All must be in the hands of the clergy. He agrees with Bishop Pendergast, in his spirit of "no compromise." He will not recognize altar-boards, nor vest, against duplicity of churches as expressed by the group of laymen, to which he belongs, and to which he belongs. He will not, as a Catholic church. He will not, because the church does not recognize it. If the bishops of Canada have also adopted the resolution of the bishops in a Catholic church, he says, beyond the canon, and he recognizes their leadership, because in this instance it would make almost unbearable the loss of some of her most noble priests. He wishes that the bishops are not the Church of God.
